

February 16, 2012

Dear Bob,

God blessed me with the privilege of aligning my Kingdom calling and Kingdom passions early in my adult life. For 25 plus years now I have been trying my best to advance God's Great Commission throughout the world. Over the years the Lord has provided many mentors to help learn to be a more effective servant of God.

The Masters Program couldn't have come at a better time in my life to sharpen my focus and provide me new and better tools to accomplish God's purposes for my existence. The Masters program is both inspirational and practical.

The journey of discovery with like-minded, passionate leaders has been an incredible gift. My small group of men have sharpened me as iron sharpens iron. We will continue the journey together as friends and co-laborers in God's commission long after the Masters Program ends.

During our three years together the insights I gained were invaluable to me in making some very key decisions in my life and ministry. One of those decisions created great margin for me to be able to spend more leveraged time in my "sweet spot" bringing greater leadership value to the organization I serve and allowing me to have much more fun at the same time.

One of the greatest contributions of the Masters Group to me was the constant reminder and teaching of integrating my wife and family in my/our Great Commission adventure together. It is not just my dreams, but *Our* dreams as *ONE* that God wants to use to bring glory to himself.

I haven't come close to applying everything I learned, but I have a treasure trove of well-organized tools, and books that I can turn to for insights and help.

During the Master's Program you referred many times to a military term called a Force Multiplier. You explained that a machine gun put in the hands of a soldier multiplies his impact many times over. Well Bob, I believe you and the Master's Program have become an incredible force multiplier to me as a soldier in God's army.

THANK YOU for your teaching, mentoring, coaching and practical tools that makes me more dangerous to the enemy, and a more useful instrument in God's hands to advance his Kingdom all the while having a lot more fun doing it.

Worshipping Him,

A handwritten signature in cursive script that reads 'Dan'.
